Subject: Dept. Of Health Dr. Catherine Torres and Jim Green

Message: I wrote you about this problem about the DOH. The abuse of power. It seems to not affect the Gov. and others in her Cabinet/Department. There was an article in the Santa Fe reporter about the "disgruntled employees" and letter they sent; it seems to get worse daily. Jim Green is now watching in the halls that leaves early to catch the train home to Rio Rancho/Albuquerque, now all employees who have family have to wait until 5:30pm train to come home. Some had modified schedules. Now Mrs. Torres is stopping all of this, with the help of Jim Green. I wish somebody could look into this abuse of power, because she is driving people to resign the position at the DOH. This is micro managing to the extent. I hope the Governor is not behind this. She seems to do a good job. But somebody needs to stop this abuse. Morale is very low, employees afraid to go to work at DOH; Dr. Torres screams at people and degrades to the point of humiliation. This is not a professional woman running this Dept. she is more like a dictator. It's the DOH for NM the largest office in State Government. Please somebody get back to me. Maybe the Governor can meet with the staff of DOH and hear their concerns. But somebody needs to get back to me and listen, listen, listen. This very bad. HELP, SOS, MAYDAY, MAYDAY. THE BOAT IS SINKING. GET THE POINT.
